

# Independence Chair™ Contour

Manufactured By VELA

Are you looking for a chair built for accessibility and regular use? Enable Me has what you need. The Independence Chair™ Contour by VELA is great for users who are interested in having an adjustable chair that helps support them in their daily routine with additional safety, comfort, and stability.

Using the Independence Chair™ Contour, you can stay seated while raising or lowering your chair with a button underneath the seat. The contoured side supports help you stabilize your posture. It also has the largest backrest and seat size of any model that we carry.

Interested in a smaller backrest/seat or a manual height adjustment?

**Contact us** to see more options.

**The Independence Chair™ is available in 5 colors:**

## Features & Benefits

The adjustable features on the Independence Chair™ Contour manufactured By VELA can assist you through your entire daily routine.

- Electric height adjustment allows you to raise or lower your seat safely & easily while staying seated
- Contoured side supports and large backrest and seat size for maximum comfort
- Supportive closed-cell foam seating helps with lumbar support, comfort, and posture
- Abrasion and water-resistant fabric, durable steel frame, and Scandinavian design for a long product lifespan
- Adjustable back to improve posture
- Get eye-to-eye with your peers and loved ones in a seated or standing position
- 22-degree backward recline for ultimate comfort
- Locking wheels that keep the chair securely in place
- Long-lasting battery system to get extended use without needing to recharge constantly
- Be seated safely while performing tasks, hobbies, and activities and conserve energy
- Rubber wheels with four-inch encased castors to smoothly glide from room to room or between tasks with ease
- Detachable accessories, including a seat protector, foot ring, and companion bar for additional support and protection

## Safety and Independence

The Independence Chair™ by VELA enables people to safely go back to their daily routines with confidence. The user-friendly Independence Chair™ increases self-sufficiency by allowing you to do your standing activities sitting down. Transfer or get to a standing position without worry with the feature of locking in place to stop unwanted rolling. The Independence Chair™ is the right choice for those seeking freedom and comfort in their daily lives.
