

Independence Chair™ Epic

Manufactured By VELA

Are you looking for a chair built for accessibility and regular use? Enable Me has what you need. The Independence Chair™ Epic by VELA is great for users who are interested in having an adjustable chair that helps support them in their daily routine with additional safety, comfort, and stability.

This model is designed for a maximum weight limit of 440 lb. If you require a higher weight limit, **contact us** to see more options.

Features & Benefits

The adjustable features on the Independence Chair™ Epic manufactured By VELA can assist you through your entire daily routine.

- Electric height adjustment allows you to raise or lower your seat safely & easily while staying seated
- Supportive closed-cell foam seating helps with lumbar support, comfort, and posture
- Abrasion and water-resistant fabric, durable steel frame, and Scandinavian design for a long product lifespan
- Adjustable back to improve posture
- Get eye-to-eye with your peers and loved ones in a seated or standing position
- Locking wheels that keep the chair securely in place
- Long-lasting battery system to get extended use without needing to recharge constantly
- Be seated safely while performing tasks, hobbies, and activities and conserve energy
- Rubber wheels with four-inch encased castors to smoothly glide from room to room or between tasks with ease

Safety and Independence

The Independence Chair™ by VELA enables people to safely go back to their daily routines with confidence. The user-friendly Independence Chair™ increases self-sufficiency by allowing you to do your standing activities sitting down. The smooth motion comes with a stable central brake for excellent support and comfort. Transfer or get to a standing position without worry with the feature of locking in place to stop unwanted rolling. The Independence Chair™ is the right choice for those seeking freedom and comfort in their daily lives.
